

FRESH TRACKS FARM[®]

Vineyard & Winery

At Fresh Tracks Farm Vineyard and Winery, we offer an array of goods both grown and made right on our premises including maple syrup, grape jam, and most notably our variety of wines.

From 14 acres of vineyards we have been able to produce several varieties of wine. Currently, we offer four. Little Piggy Pink is an off-dry rosé made from the Frontenac grape which features delightful cherry notes that lend to a very unique wine experience. The Vermont Rosé is pleasantly dry with notes of strawberry and red apple peel which pairs wonderfully with a sharp local cheddar or blue cheese. Our Frontenac Gris is a well balanced semi-sweet white which has a smooth and lively tropical palate. Lastly, the American White, our newest addition, is a light, dry, subtly fruity white wine. Our maple syrup is produced in our sugarhouse, aptly named "Sugarhouse Round" after its distinctive cylindrical shape. We offer our syrup in a variety of sizes and grades, and it is packaged in beautiful glass bottles. Our jam is appropriately grape, and made from a separate variety of grapes that we grow specifically for it. It is handmade and packaged right at our farm. Both are tasty treats!

All of our products are showcased in our cozy and inviting tasting room right here in Berlin. We use geothermal technology to heat and cool our facility and solar energy for a portion of our power needs. Feel free to stop by some time to sample our wines, enjoy a glass with friends, or browse our products in this welcoming space.
