

**May 6, 2015, Berlin Conservation Commission Minutes:** Those attending: Ellen Drysdale, Phil Gentile, Andrea Chandler

**No update on town forest logging** was available as Beth was not able to attend.

**Berlin Pond's northern land parcel ownership survey results** should be available shortly. The surveyor has recently finished his field work and is now compiling the results.

**The beaver baffles** for Crosstown Road are being looked into. Corey Cheever, the State's contact has not yet started his seasonal work. Contact with Fish and Wildlife's Chris Bernier's office said there are usually some funds available for state-installed baffles but that every year funding priorities change. We will follow up with Chris when he returns to his office on Monday (885-8845). Skip Lisle, a private contractor from Grafton VT, <http://www.beaverdeceivers.com>, is another option if the State doesn't work out.
